

IN YOU

BEN WILLIAMS, JONATHAN BERLIN, RYAN BRITT

Verse 1

In the night, in the night
There is no end
To the ways that I fail
But play pretend
Like I'm a friend

Put on a face, can relate
We've all been there
To the depths of our guilt
And our despair
We're unaware

Chorus

In You, there's Hope that's oceans deep
In You, there's Refuge for the weak
In You, there's Love that's mountains high
In You, there is Eternal Life

Verse 1

In the day, in the day
I'm rooted deep
To the ways You redeem and set us free
You set us free

Salvations Spring
The Well is deep
You carry us to
To sweet relief
You cover us
And cloak what this
Dark heart bleeds

Bridge

I tried to be the best in me
But on my own I just can't seem to be
All that You are calling me to be
And that's why I need to stay
